

Sprint Plan 2

Product Name: Easy-Commerce

Sprint Completion Date: Wednesday, March 01, 2017

Revision Number: 1

Revision Date: Monday, February 15, 2017

Goal

- Create a basic interface for buyer to be able to purchase items.
- Refactor functionality for vendor to add and sell items.
- Search for online stores
- List the sales for vendors and help analyze and visualize sales.
- When a transaction is performed, database will be updated automatically

User Stories (pts)

- As a vendor, I want to be able to confirm incoming online orders so that I can notify the user that the order has been accepted.
 - Confirmed incoming order.
 - Get user information to txt notification (book chapter 8).
 - Timer set by vendor that lets that user know when to order is ready.
 - Notification to let the buyer know an item is ready via txt.
- As a buyer, I want to be able to place an order so that I can purchase from a store.
 - Set-up credit card purchasing
 - Provide user with order confirmation via text or e-mail.
 - Shipping Options
 - Create a database table to be able to tack items info. (Michaela)
 - Create shopping cart to store temporary items without purchasing them.(Michaela)
- As a buyer, I want to be able to see the store location so that I can go to the shop if it is nearby.
 - Implement Google Map API to display an address.
 - Display the location of vendor using a map.
 - Redirect user to google directions when the user ask for directions to the vendor.
 - Allow vendor to update address according to their location.

- Provide user directions based on their location.
- As a buyer/vendor, I want a detailed welcome page so that it can redirect me to the right place.
 - Create a welcome page that has redirection for buyers/vendors.(Gerardo)
 - Login
 - Register
 - Browse online stores.
 - Have information that describes the services offered by the website.(Gerardo)
- As a vendor, I want to create an online shop so that I can sell items
 - Create a login system so vendor can go to vendor only landing page
 - Upload pictures and item information
 - I feel like this was already done in Sprint 1, or at least its in my branch already -Paula
 - Make a vendor only sales dashboard (Daniel)
 - Create option to update order status and tracking
- As a user/buyer, I want to be able to login so I can keep track of my current and previous orders. (Ali)
 - Display order status and history.
 - Keep track of wish list.
